MEMORANDUM

Insurance Cover for Nursing Students

Referring to your memo. of 15th February, could you please let me know if any reply has been received from the insurers, as this question of indemnification of our students against accidents to third parties has been going on for some time and we still have no evidence to offer the ward sisters concerned that such insurance is in force.

As our students do not come under the umbrella of the Hospital's insurance, the ward sisters look to us for reassurance that this has been taken care of by the College, and we would like to be able to provide them with a copy endorsement as proof, and they are still pressing us to do this.

INSURANCE COVER FOR NURSING STUDIES

In reply to your memorandum (undated), I confirm that the endorsement was duly received and a copy passed on to the Middlesex Hospital. They have since written again seeking a further form of indemnification from College and this has been referred back to our insurers.

I have also referred to the insurers the fact that the Ward Sisters are seeking re-assurance regarding indemnification against accidents to third parties arising from the presence of our students. It may be a case of the Ward Sisters seeking the re-assurance from their own H.M.C. but I will advise you as soon as I have a reply.
