Dear Miss Monkhouse,

I enclose an application from Miss Baggallay for a change in practical work in the case of Miss Hakola (F.N.I.F. student).

I think it had better come before the Bedford College Committee. I have no objection to the change in the nature of practical work in itself; but the Committee ought to discuss whether it is consistent with the wording of the Certificate, which suggests an all-round training for social work rather than training in a specialised kind of social work.

Will you kindly put it on the agenda of the next meeting?

Yours sincerely,

Henry A. Mess

Dear Dr. Mess,

re Miss Hakola

Miss Hakola is taking the Course A.2. - Family Case Work. She has already done five weeks; twenty-five days I.C.A.A. work, living in a Settlement in Peckham and twenty-five days in the Paddington C.O.S. I have planned for her to do another ten days at Christmas time at Paddington.

She asks whether instead of continuing her C.O.S. work next term for two days a week she might be allowed instead to be attached to the Mental After Care Association or to a psychiatric social worker to do home visits in this special type of social work. Miss Hakola, as you know, has done a considerable amount of this special form of work in Finland and is very used to dealing with mental patients. The type of work she would be doing would be social work of a specialised kind, and she asks whether, if she did this, it would qualify her for her certificate at the end of the year.

Yours sincerely,

Olive Baggallay.

Dear Dr. Mess,

Two of our students, Miss Banwarth and Miss Hofman-Bang are asking for permission to take the lectures on Mental Hygiene given by Dr. Hadfield at King's College next term. This is Course A.6. advertised in the University Calendar, Department of Psychology, King's College. It is the second half of the course which Miss Hakola is at present taking.

Miss Hofman-Bang would like to substitute this for the course in Psychiatry offered at Bedford College during the summer term by Dr. Alice Hutchinson, since it is not Child Psychiatry but Adult that she is wanting. Similarly, Miss Banwarth would like to substitute this for the Psychiatry.

I think that both students when they saw you at the beginning of the year told you that they were particularly interested in this subject and asked if they might have some special work in it. If you would like to see them about this I could arrange an appointment for them to come and see you.

Yours sincerely,

Olive Baggallay
