Mrs. L. Meerabeau, Lecturer in Nursing Studies, Nursing Studies Unit, Bedford College, Regent's Park, London, NW1 4NS

6th August, 1982

South House

THE MIDDLESEX HOSPITAL MORTIMER STREET

LONDON W1N 8AA

Dear Mrs. Meerabeau,

re : Community Programme - First Year Students

I thought it best to write to you immediately so that your programme will not be disrupted at a late stage.

We have spent 10 days now trying to see where one or two students might be placed in the period under discussion. There is no way in which we can satisfy your requirements on this occasion, even for 1 or 2 students. Apart from the regular 3 or 4 general course student nurses, we also have current degree course students for a week each from 4th October, 1982 to 5th November, 1982. We have 4 District Nurse and 3 Health Visitor students in the District. The first week in November is an in-service week, involving 6 - 8 staff at Paddington Green Hospital.

With this commitment to students already, I regret that no further provision can be made for this year.

Yours sincerely,

Ruth Saunders

R. Saunders (Mrs.) Senior Nursing Officer (Community)

c.c. Mr. R. Hoy Director of Nurse Education

Bloomsbury Health Authority

MURSING STUDIES UNIT,

22nd July, 1982.

Mrs. Saunders, S.N.O. (Community), Bloomsbury Health District.

Dear Mrs. Saunders,

I had hoped to give you final details, but this is an interim report. I have just lost two placements owing to the impending surgery of a community tutor, and am therefore negotiating with other districts in North London.

The dates we have arranged for our initial community experience are on the enclosed programme; we are confining it to district nursing and health visiting initially.

I will contact you again when I have more definite information about numbers.

Yours sincerely,

Liz Meerabeau, Lecturer in Mursing Studies.
