

Physiology

BEDFORD COLLEGE  
(UNIVERSITY OF LONDON)

MEMORANDUM

To: Mrs M Ferguson, Nursing Studies  
From: S Chapman, Physiology Secretary

17 November 1982

At last, here are the schedules for the PY14 Nursing Studies course!

The timetable shows the lectures and the practicals for the first term. Since the titles only are shown on this timetable, we have included the schedules that are handed out to the students in the practical classes so that the detailed content of the classes can be seen.

For the moment, I have only given you the Michaelmas term, since the next two terms are in the process of being re-organised and so the schedules are not quite ready yet. I will send you these as soon as they are available.

I am sorry that these have taken so long.

*S. Chapman*
