Copy to Accountant.

June 4th 1936

Dear Madam,

I thank you for the statement of fees for lectures attended by International Students at the College of Nursing during the Lent Term 1936. Bedford College is no longer responsible for the lectures taken by Miss Michalska, so I have subtracted the payment for these (12/- less one-seventh, 10/4d), and have amended my copy of the account accordingly to £81. 6. 10, which I trust you will find in order.

I am informed that the course for Tropical Nursing is not yet finished and not all the students are attending regularly, so that the account received for this course may require some amendment.

Yours truly,

Secretary.
