

10th November 1933.

Dear Mrs. Carter,

I have shown the draft prospectus for 1934-35 to Mrs. Reid and now return it with a few suggestions for alterations, namely:

Pages 7 and 8	)	Suggested alteration in wording
Page 14	)	
Page 15	)	Lectures in Maternity and Child Welfare. You will remember that these were to be increased to 10
Page 16	)	Principles of Hospital and Training School Administration. At Miss Parsons suggestion we have inserted "about" before the number of lectures because of the re-arrangement whereby there are now a number of lectures and several demonstrations.

Yours sincerely,

Secretary.
