

18th July 1929

Dear Miss Bowes,

I enclose proposals concerning payment of tuition fees between Bedford College and the College of Nursing which we discussed in my office about 10 days ago. I am to ask you to be good enough to lay these suggestions before the Authorities of the College of Nursing. It is much hoped that they will be considered satisfactory.

For your own information I would point out that there is a slight change in section B from what was suggested at our meeting. The proposal now made seems a more satisfactory one from every point of view as I hope you will agree.

Yours very truly,

Secretary.
