Ms. M. Ferguson,
Director of Nursing Studies,
Bedford College,
Regents Park,

Dear Marion,

re. Examination Questions for First Year Students

I have looked through the First Year paper and like its contents very much. I am attaching a few suggestions about possible rewording principally of Section A question 3, I am quering the word regular in Section B question 4. If my suggested redraft does not precisely meet what you would wish to ask the students please do not hesitate to substitute your own words.

I was grateful to have your up to date description of developments at Bedford and the implications for you. I shall of course watch developments with interest.

Yours sincerely,

SP McFarlane of Llandaff.
