Professor M Ginsburg
Pharmacology Department (Chairman SAC in Nursing Studies)
Manresa Road

Dear Professor Ginsburg

Re Conversion Course for Diplomates

Among the papers submitted to the SAC by the Working Party on the Diploma in Nursing, you will see a course proposal from our Department. May I request that the Committee consider this proposal as a submission for approval of the course, in principle. Fine tuning and further discussions may of course be needed. Our Department has now been awarded further student numbers (four annually) and in order to benefit from this it would be ideal to admit a small number of "distinction" candidates in the next session. This could be seen as a "pilot run" and would not require further resource implications for the University.

With many thanks.

Yours

Jenifer Wilson-Barnett
Reader in Nursing Studies
