

Ref. 10382.

January 13th, 1927.

Dear Mr Bicknell,

I have to thank you for your letter of the 11th inst. I am very glad to hear that you are sufficiently satisfied with the plans that we have been able to make for carrying on the practical training of the League of Red Cross Societies' students. I think myself that it means a solid step in the right direction.

I will bring before my Council at the next meeting the question which you raise of the appointment of a College Committee for the planning of the work of your students. I have no reason to think that the Council will not be ready to carry out this suggestion.

I should like to take this opportunity of saying how much pleased I am to think that the College is able to co-operate in the valuable work which is being done by your League for the wider training of Public Health Nurses.

Yours very truly,

Principal.
