Mrs. E. Meerabeau,
Lecturer in Nursing Studies,
Bedford College,
Nursing Studies Unit,
Regent's Park,
London, NW1 4NS.

Dear Mrs. Meerabeau,

Thank you for your letter of 22nd July in which you ask for community experience for students undertaking an undergraduate course in Nursing Studies at Bedford College.

We can help you in a small way only as Islington is an Inner London area and we have numerous students who require community experience.

We would be pleased to take one student during the period January - March 1984 for two days a week, and if this acceptable to you, either I, or the Senior Nursing Officer Health Visiting will be pleased to discuss details of the students needs.

I regret we cannot help with the first year students during October this year.

With apologies for the delay in replying to your letter.

Yours sincerely,

Heather Chapman

22nd July, 1982.

Miss H. Chapman,
Divisional N.O. (Community),
Community Health Services,
159 Upper Street,
London N.1.

Dear Miss Chapman,

Mrs. Marion Ferguson, Director of Nursing Studies at Bedford College, has asked me to contact you in connection with 'community' experience for students on our undergraduate course in Nursing Studies leading to a B.Sc./S.R.N.

The first group (seven students) will be required to undertake this experience for two days a week during January-March 1984. Owing to the difficulties of placing students in the Inner London area, we are approaching the outer districts for district nursing and health visiting experience and we would be very grateful for any help you may be able to offer in placing these students. We have generally found two placements per district to be a reasonable number.

We would also like to offer a very short community experience to our first-year students, beginning in October, 1982. This would be on October 21st/22nd, and 28th/29th, and November 4th/5th, and would be limited in range, being three days with a health visitor and three days with a district nurse.

I should be pleased to come and see you in order to discuss this in further detail, and I look forward to hearing from you.

Yours sincerely,

E. Meerabeau (Mrs.)
Lecturer in Nursing Studies.
