This candidate applied for admission to the Course for the Session 1933/34 but withdrew her application as it was not possible to get leave of absence for a year.

She has applied for admission for the Session 1934/35 and has asked that her application be considered at the October meeting in order that she may be able to make arrangements for her leave in the event of her application being successful.

As her early education was all carried out by private tutors and the candidate had passed no examination to show that she had attained a standard she was asked to supply references showing that she had a good general education and able to profit by the Course.
