29th June 1929.

Dear Miss Rundle,

Now so many Bedford College Students take lectures at the College of Nursing we are anxious to reconsider the financial relationship between Bedford College and the College of Nursing which was, as you will remember, in part at least based on a much smaller number of entries and subject to revision. Could we have a preliminary talk about this so that we might agree on some suggestions which I could lay before the Principal?

Yours very truly,

Secretary.
