Dear Jean,

This is to thank you on behalf of the Unit of Nursing Studies at Bedford College for your work on the examination scripts and your very useful comments which we have taken on board. We have been discussing the very issues that you highlighted so penetratingly, and I was pleased to receive your guidance as external examiner, a necessary force in helping to shape course standards.

I am sorry you were unable to be present at the examiners' meeting and wish you a speedy recovery.

Yours sincerely,

Marion Ferguson.
