Dear Mrs. James,

You wrote on 22 April to let us know that you were seeking the advice of your Solicitors on the question of indemnifying our students while they are working at the Middlesex.

I wonder whether there has been any progress on this. Our students will be on the wards full-time for six weeks as soon as their exams are over, and we are particularly anxious that they should be covered during that time.

I should perhaps mention that during the rest of the year, they are at the Hospital for  $2\frac{1}{2}$  days per week per term.

I look forward to hearing from you.

Yours sincerely,

S.M. ABRAHAM
