27 April 1984

Miss Marion Ferguson
Director of Nursing Studies
Bedford College
Regent's Park
London NW1 4NS

Dear Miss Ferguson

As you will know it is a requirement of the Board that student nurses gain a minimum of four weeks experience in maternity care and care of the newborn. I understand that some Universities and Polytechnics are finding it difficult to arrange this experience for degree course students particularly when all other clinical experience takes place in one school of nursing.

In order to gain information upon which advice can be based I would be grateful if you would complete the attached form.

Yours sincerely,

MISS R WYRILL
Senior Education Officer

ENC:
