

BEDFORD COLLEGE
(UNIVERSITY OF LONDON)

MEMORANDUM

To: The Accountant

From: Marion Ferguson,
Director of Nursing Studies.

14.10.83.

VERY URGENT: Insurance for Nursing Students

We have not had a reply to our last memo. copy of which is enclosed and the matter of insurance for our students is now becoming very urgent as the students have started on the wards at the Charles West School of Nursing, part of the Great Ormond Street group of Hospitals for Sick Children. We are getting repeated requests from them for formal confirmation that our students are indemnified against any accident to third parties during their practical educational placements on the wards.

I should be glad if this could be dealt with as soon as possible.

Encl: Copy of previous memo. with enclosures.
