MEMORANDUM

To: Marion Ferguson ✓

From: Ivor Burton

4 June 1985

Baroness McFarlane has rang me to say that she was unaware that she was still involved with our examinations and will not be able to mark the extended essays as she is out of the country during June. She suggests that Dr Baker in her department could substitute and that is what we must do. Would you therefore arrange that any essays are addressed to Dr Baker and not Professor McFarlane.
