Nursing Students - Insurance

Thank you for your memorandum of the 5th. I have had both a telephone and written reply from the Middlesex Hospital to the effect that they are asking the advice of their own Solicitors on the question of indemnifying our students whil they are working at the Middlesex.

I am sure we will be told as soon as an answer is received and I will certainly pass it to you. I am sorry that it seems to be dragging on so long and can well understand your anxieties. If you feel that at any time I should 'prod' mercilessly, I will do so!
