It is some years since students have been to the Edinburgh Royal Infirmary, but the arrangement seems to have been most successful. It is the first time that students have been to Miss Bowes at Birmingham.

The students returned to London for Easter, and after Easter Miss Weimanowna went to the Queen Alexandra's Hospital, Millbank, from April 18th to the 22nd, and had an opportunity to study the organisation of a military hospital in this country.

The three remaining students went one day to the Streatham Home and Hospital for Incurables, and also visited the food supplies depot of the London County Council.
