

February 2nd, 1932.

Dear Mr. de Guilgud,

Thank you very much for your letter of January 30th. I am extremely glad to hear that the Chairman of your Board of Governors has authorised the continuation of the courses for International students for a further year and that he has guaranteed the necessary funds for that period.

It is a source of great satisfaction to all those who have been concerned in the scheme that the International Council of Nurses should be considering its adoption as a memorial to Florence Nightingale. I much hope that the negotiations on this matter will proceed satisfactorily.

I note that you may not be able to guarantee a large number of students for next year.

Yours sincerely,

Principal.
