Dear Lisbeth,

I wanted to thank you for taking the trouble of cutting short your holiday to join us in our deliberation on degree clarification, and I feel we have been very fair to our students, thanks also due to your active participation.

I have contacted Senate House in relation to your claim for expenses and they have assured me that they will send you the appropriate forms.

May I please ask you to let me have an external examiner's report in relation to the two papers you have examined.

I hope to see more of you when you are in London during the next Academic Year so that we can meet for the odd lunch or so.

Yours sincerely

Marion Ferguson
Director Nursing Studies.
