Dear Miss Baggallay,

I do not know what stock you have left of the material which I distribute to the class but I should like once again to give out "School Hygiene" some time during my Tuesday lectures and "Exclusion Periods of the Commoner Infectious Diseases", "Immunity and Protection", and "Notification of Infectious Disease" during my Wednesday lectures. I should be most grateful if you would get these done for me. I think it would be a good plan if they had "School Hygiene" at the beginning as it will help those whose English is weak to follow lectures on that subject much better than if they had no typescript. I deal with "Immunity" in the second of my Wednesday lectures and as this is a difficult subject I think it would be well if they had the typescript dealing with it in time for the lecture.

I hope to see you on the evening of October 6th at Manchester Square.

Yours sincerely,

G. S. Parkinson 25. - 50.

Miss O. Baggallay,
15, Manchester Square,
W.1
