

6th February 1934.

Dear Mrs. Carter,

Will you be in London at the end of February or the beginning of March, or if not, could you possibly arrange to attend another meeting of the Organisation Committee this term? The reason is as follows. If the sub-committee recommend a one year's Social Studies course as an alternative with the Public Health and Nurse Administrators Courses for the award of the International Certificate, we should like, if possible, for this new course to be included in the programme for 1934-35. We understand from Mrs. Reid that you might have some possible candidates for it. We have done some work on this matter already and the sub-committee is meeting to consider proposals for the Social Studies course on February 16th. If they decide to send it forward we could have a meeting any time after this according to the convenience of the committee. I shall be grateful to have your answer before the 16th if possible.

Yours sincerely,

Secretary.
