Dr. J.H. Botting
Chelsea College
Manresa Road
London SW3 6LX

Dear Dr. Botting,

I have been in touch with Professor Ginsburg in connection with our half course-unit in Basic Pharmacology and have taken action to have you appointed a member of our sub-board. At some time you will need to agree a paper with Dr. Segal who is to act as external for our students as well as yours at Chelsea, and then if you could send me the final draft I will see to its being printed etc.

Then there remains the date of the examination. We would like this as early as possible so as to clear the students for their clinical practice. There is, so Professor Ginsburg states, no reason to hold it on the same day as the Chelsea examination. We would like some time in the week Tuesday, 29th May to Saturday, 2nd June. Have you any views on this?

In due course, I will write officially to you telling you about the despatch of scripts, return of marke etc.,. It may be that it would be more convenient for you in the meantime to correspond directly with Marian Ferguson if you have any problems but I am always ready to help if I can.

With best wishes for 1984.

Yours sincerely,

Ivor Burton
