Dear Marion

I hope that you don't mind me using your first name, but I feel that I have known you for so many years.

Bob and I would like to say a very big Thank you to you for all that you have done for Catherine over the past four years. We are very grateful to you, and are very proud of Catherine. There were a few hiccups in the early days, and we know that it was very largely due to your help and understanding that these were overcome.

We did enjoy the party in June, it was so nice to meet you, as well as other tutors and

parents, and I felt that
it was a good way
to round off the girls
course. Thank you.

Yours very sincerely
Beverly Handley
