Dear Mrs. Murchison

Many thanks for your letter. I

had a card from Mrs. Hemmings

this morning reporting some

improvement but I expect your news

is of later date.

— I agree that it is not much

use trying for Madrugada. I

never thought there was much

chance of getting him over the

seem to be much in the centre of affairs.
We can I think leave the question of a
substitute till we return.

Our water has been as you describe
yours - I'm afraid Bill will be
very arctic! If you care for
a driving jacket in this direction
we will be delighted to see you &
your patron to a meal at any
time.

Y^r ever
G. J. Jell
