Dear Marion

Thank you for your nice letter after my session with your or my student nurses. I have had some preliminary discussions with one or two of my senior colleagues about the care in placing those nurses at the end of their course. I shall certainly be happy to meet with them again, either at Bedford or here, individually or as a group. You may by now know that I have been appointed as the General Manager at Waltham Forest. I shall be happy to talk with your students next year, although I am trying to be realistic about my time and the difference which the journey will make to my ability to undertake central London commitments. Perhaps you would like to consider organising a visit to a non-teaching hospital and I could meet with them on my territory rather than theirs!

I also hope that you and I can keep in contact.

Best Wishes,

Yours sincerely

Christine
