The College of Nursing

LIMITED,

HENRIETTA STREET, CAVENDISH SQUARE, LONDON, W. 1.

31st October 1927

Mrs Reid,
Bedford College for Women,
Regent's Park,
N.W.

Dear Mrs Reid,

You will remember it was suggested a little while ago that a certain number of lectures, I think it was in the Teaching of Public Health, should be undertaken by the College of Nursing. There was an informal discussion at Manchester Square with Miss Baggallay, Miss Cowlin and yourself, concerning these lectures. As a result of this meeting, a further meeting was arranged with Miss Baggallay and Miss Viney; and it was suggested that Miss Viney should give a certain number of these lectures. I should be glad if I might have some official communication from you with reference to this suggestion; for, as you will know, it is outside the scope of the Hospital Administration and Teachers in Schools of Nursing Course.

I do not know whether in your discussion any suggestions were made as to the way in which the expenses of these lectures were to be met, but I feel sure you can help me in this. I have an Establishment & General Purposes Committee on Thursday next, and I shall be so grateful if I may hear from you before that date, so that if you have any suggestion to make I could put it before my Committee then, and we could get on with any arrangements thought desirable.

I remain,
Yours sincerely,

M. S. Arnold

Secretary.
