Mr. Stan Holder  
Director of Nursing Education  
St. Mary's Hospital  
Paddington

18 November 1985

Dear Stan

Re : Bedford College Nursing Students'  
Accident and Emergency Experience

I have tried to call you several times without success hence the written communication. I am or presumably will be in trouble over my students' accident and emergency experience due to take place over a two months full-time period June and July 1986. The problem has occurred because of Bloomsbury's contraction in this area and therefore I am tentatively enquiring whether once again you could come to my help and take some students. Altogether I have only ten to place. The paediatric experience which some of my students undertook at St. Mary's was a great success and, it was for that reason anyhow, at the students' own request that I would have contacted you. But in addition I am pressurised by Middlesex to attempt to make some alternative arrangements for at least some.

I hope you yourself are keeping well and on top of your commitments.

With best wishes,

Yours sincerely,

Marion Ferguson  
Director Nursing Studies.
