Dear Mrs. Reid,

Many thanks for your letter. Next Monday October 9th at 3 o'clock will suit me quite well to come to Bedford College for your meeting and I shall be pleased to attend. I shall be much interested to talk over the matter of international students and the possibility of certain selected students having specialised training as Almoners. I feel sure you will realise, however, that I can only speak as a private individual, and any suggestions made will have to be discussed and ratified by the Council of the Almoners Institute. I know, however, that the Council will be anxious to be co-operative and to fall in with your proposals if it is in any way possible.

With greetings;

Yours sincerely,

C. Morris

Lady Almoner.

*To Mrs. Reid  
ask permission of the committee  
to invite Mrs. Morris to attend  
while the question is  
being discussed.
