

196C

REPORT of PRACTICAL PUBLIC HEALTH WORK.
August to October 1931.

We have five foreign and one British International doing the Public Health Course this year. Miss de Wael - the student from Luxembourg had to withdraw at the last moment owing to ill health.

Miss Sharpe has done two months work at the Islington *Charity Organisation Society*

The foreign students have had a six weeks programme of observation work in the St. Thomas's Babies' Hostel; - an outside Infant Welfare Centre; - the Tuberculosis Department and the Womens Out-patient Dept. at St. Thomas. Two of them have been with the School Nurses in Lambeth and the others will be working with them during the term. We have had great kindness shown us by all those who have helped the students and they have had individual attention wherever they have been.

I should particularly like to mention the St. Thomas's Babies' Hostel where they get excellent teaching and are always happy.

This year the Westminster Health Society and the new Violet Melchett Health ~~Society~~ Centre have each taken a student and each student had a successful time and enjoyed the work.

I have written reports from most of the Centres, on the students. These are good and mention the particularly keen interest taken by them in the work.

I have given Mrs. Reid a separate report on the two Yugoslav. ~~st~~ students who have worked hard and whose English is improving rapidly.
