

19th June 1936.

Dear Lady Cynthia,

I have spoken to the Principal about the Presentations next Friday and she is very grateful indeed that you can come to the Ceremony and present her to the Duchess of Kent. If you could arrange to be here by 3 p.m. or shortly afterwards we should feel very nice and comfortable. I will write early next week giving you the list of Presentations which I am submitting to Lady Mary Hope and telling you the other details in connection with the afternoon. It is not yet quite decided in which Hall the Ceremony is to take place and final arrangements naturally depend upon this. You will be amused to hear that the Council yesterday, while approving fully of the book which is to be presented to the Duchess of Kent, were insistent that she must have some flowers as well. They could not bear the thought that she should come to Bedford College and feel the lack of anything. Do you happen to know what is her

favourite flower?

Yours very sincerely,
