To The secretary
Bedford College for Women,
Regents Park, N.W.1.
London.

Dear Miss Monkhouse.

I thank you so much for the honour to be asked to speak to the Florence Nightingale Students from the nursing point of view at the annual Presentation of Certificates on the 6th July 1939.

I have tried all what I could to be able to come this year to London, but I am sorry to say it is impossible. I should have enjoyed to speak to the students, because I have always been interested in this school and the postgraduate training of the nurses.

It is going to be a congress of Nurses at Island in July 1939, and as the 1st Vicepresident of the board of the Union of the Northern nurses. I have to take the steamer together with all the nurses, because the president is on Island.

With kind regards to the Principal and Secretary of Bedford College .

I am sincerely yours

A. Kennedy
