Dear Dorothy,

It was good to see you last week and to share with you the deliberations of our students' degree classification. I feel comfortable that we have been very fair and their results compare well with those in the department generally.

May I ask you to let me have an external examiner's report on the dissertations.

I hope you and Jean will be able to work out a satisfactory financial arrangement realistic to your external examiners' fees.

With best wishes,

Yours sincerely

Marion Ferguson
Director Nursing Studies.
