Dear Prof. Thompson,

I very much enjoyed our talk and exchange of ideas when you came to see me in London and I also appreciated your encouraging letter.

I am enclosing for your information a set of papers which form the basis of the four year course - and maybe at a later stage you can drop me a line of critique on what you got out of those papers. You do realise, of course, that none of this is for publication without my permission.

I shall be involved with the course for one more whole year and you will be able to contact me at above address.

After 1986 I shall most probably do some freelancing from my home address which is: 2 PLAY-Y-COED, LAKE ROAD,EAST, CARDIFF.

Yours sincerely

Dear Mrs Ferguson,

Your kindness in giving us your time this morning was indeed much appreciated.

Your approach to the course was most interesting & I only wish you could continue. I do trust that you will feel pleased with your graduates - I am sure that with such a solid foundation they should bring you credit in the years ahead.

With every good wish for the future.

Yours sincerely
(Prof) Rosalie Thompson
