9th September 1939.

Dear Dr. Doyme Bell,

I have been informed by the Secretary of the Florence Nightingale International Foundation that the Foundation have decided to cancel the International Nursing Course for an indefinite time. I am therefore writing on behalf of the Council of Bedford College to inform you that the Council will have to cancel the course of ten lectures on "Maternity and Child Welfare" which you were to have given to the International Students at Bedford College during the session 1939-40. The Council of Bedford College much regret having to take this step, but, as you will understand, it is unavoidable in the present emergency.

Yours sincerely,

Secretary of Council.
