Dear Jean,

re: Finalists - Bedford College Nursing Students 1985

This is just to remind you that this course, whilst it is being phased out, enters its first lot of finalists for graduation in 1985. This involves your participation in examining their final year's dissertation and will involve five scripts for 1985 and 11 for 1986. I am writing now because I do not know your plans and movements and I merely wanted to assure myself of your support for final marking and classification of degrees.

Life here at the College is plainly unpleasant at the moment with an enormous amount of 'toing and froing' and most people's morale has reached low bottom. Though I will be moving out of my present office, I will remain on the Bedford College site at Regent's Park until 1985 and then move somewhere into the centre of London for the last year.

With best wishes,

Yours sincerely,

Marion Ferguson
Director of Nursing Studies.
