

196

5th February 1931.

Dear Mrs. Reid,

The Council at their meeting yesterday were not quite satisfied with the proposed wording for the endorsement of certificates and asked that it should be amended as follows:

"The student has done satisfactory work throughout the course and has attained in her work during that time the required standard in.....with distinction in the following subjects....."

The Council were anxious that the wording should leave no opening for a false impression that an examination had been held.

I have sent the proposed change to Mrs. Carter but hope the certificates will not have to be printed until, as a matter of form, the Council's proposal has been reported to the Organisation Committee.

Yours sincerely,

Secretary.
