Professor L.T.E. Oppé  
Paediatric Unit  
St. Mary's Hospital Medical School  
London W.2.

Dear Professor Oppé,

I fear I have a problem for you concerning our nursing studies paper 'Pathology and Therapeutics. You will remember that I suggested Dr. Andrew Herxheimer as external examiner and originally he was willing to act. He has now told us that he is over committed and would suggest that we substitute a colleague, Dr. Joseph Laity, Senior Lecturer in Pharmacology at the Charing Cross Hospital.

Do you think you could see your way to taking Chairman's action to have him added to the Panel of Examiners?

Yours sincerely,

Ivor Burton
