

Sr

I am instructed by the Council to make an application on their behalf to the Board of Education for a grant for the 2.5% allotted to Technical Education in aid of the Hygiene work now carried on in the City.

The Hygiene work is of two kinds

1) Course of Scientific Instruction - Hygiene

This is specially designed to meet the needs of women who desire to prepare themselves for further work as Factory Inspector or more directly in connection with the Public Health or Sanitary Inspector, Health Visiting,

2) Course of Lectures for Teachers in the Hygiene of Common Life

This course is carried on. These courses were started with the view of providing thorough scientific instruction in the laws of health to teachers who already possess some knowledge of science. The ^{at Mrs} College

The Hygiene Lectures & Schools in and about the City are of great value whose knowledge is of great importance. help to widely improve the ^{health} Hygiene in schools and now after after to be important they be based - Public Hygienical knowledge
