1 June 1984

Mrs M Ferguson
Director of Nursing Studies
Bedford College
Regent's Park
LONDON
NW1

Dear Mrs Ferguson,

Please find enclosed a sample programme for the Obstetric Student Nurses, who are undertaking the Maternity Care and Care of the Newborn Course. On Saturday June 30th 1984 I will be giving an introductory set of lectures to the B.Sc/SRN students. These will include aims and objectives of obstetric care, antenatal care, the placenta, nursing care in labour, anatomy of the pelvis and foetal skull, anatomy and physiology of the breast and lactation. Mrs Mirabeau has a copy of the student rotas. The students all start on Labour Ward at 7.30am on the Saturday morning.

I hope that this will be of use to you.

Yours sincerely,

R J Davies
Senior Sister - Maternity Department
