Dear Madam,

I very much regret that we seem to be so dilatory with regard to the scheme which was discussed at Bedford College on May 14th.

The letter to the Minister of Health was sent within a few days but we have not yet had any decision from him. It is most unfortunate as autumn is always such a good time for commencing work.

I shall write again when we receive any definite reply.

With thanks,

Yours faithfully,

M. J. Rimmer

Hon. Organising Secretary.
