

23rd July, 1982.

Mrs. J.M. Longden,
Faculty Officer,
Science & Engineering,
Senate House,
Malet Street,
London WC1E 7HU.

Dear Mrs. Longden,

Examiners in Nursing Studies: 1983.

In answer to your letter of 16th June, I am now able to submit the name of an alternative examiner, who would be willing to serve as a member of the Panel of Visiting Examiners in 1983. He is:-

Professor Andrew Herxheimer, MB.BS, FRCP,
Clinical Pharmacology & Therapeutics,
Charing Cross Hospital Medical School.

Yours sincerely,

Marion Ferguson,
Director of Nursing Studies.

Dear Mrs Ferguson

Examiners in Nursing Studies 1983

We have now heard that Professor F H Fentem (Dept of Physiology and Pharmacology, Nottingham University), will be unable to serve as a member of the Panel of Visiting Examiners in 1983.

You will recall that Professor Fentem has previously served as an External Examiner at Chelsea College and will not be eligible to continue there after this year as he will have served for four years. He was however eligible to act at another college and was retained on the panel at the request of Bedford College. I am therefore writing to ask for your suggestions for an alternative examiner in his field.

I should be grateful for an early reply in order that I may then seek Chairman's Action, as panels of visiting examiners have to be approved by the Academic Council and the October meeting of the SAC is a little late for examinations department to take the necessary actions.

Yours sincerely

Mrs J M Longden
Faculty Officer
Science and Engineering
