Stockholm,

Sibyllegaten, 23.

March 13th 1937.

To the Secretary of the Council,
Bedford College,
London.

Dear Madam,

The Bedford College has shown me a great honour by inviting me to speak to the International Students at the presentation of Certificates on July 8th. I accept the invitation with the greatest pleasure as of course I am very much interested in the work done by trained nurses and women doctors in different parts of the world, having seen the necessity and the effects of such international work especially during the 18 months I spent in the East some years ago.

I shall be very pleased to make your acquaintance, looking forward so much to my visit in Great Britain.

Yours sincerely,

(Signed) ALMA SUNDQUIST.
