

5th November 1928.

Dear Sir,

The Council of Bedford College have learnt of the considerable help which you have rendered to the College in connection with the training of our Public Health students during the summer 1928. Miss Baggallay, the Tutor to these students speaks with much gratitude of the facilities afforded by you for a period of four weeks observation. I am directed to send to you the following resolution which my Council passed at their last meeting:-

"That the thanks of the Council be conveyed to Dr. Holden, M.O.H. for Croydon for his help in planning four weeks observation for two of the International Students."

Yours truly,

Secretary.

O.M. Holden, Esq.,
Public Health Department,
Town Hall,
Croydon.
