

196

October 9th, 1926.

Dear Mr Kittredge,

I have to thank you on behalf of the Council of Bedford College for your letter of October 8th. It is a great satisfaction to me, as I am sure it will be to my Council, to hear that the League of Red Cross Societies is prepared to make it possible for this College to develop the Course in Public Health Nursing on the lines of the scheme proposed by its Advisory Committee.

I shall hope to submit a detailed scheme as soon as possible.

Yours very truly,

Principal.
