Dear Miss Monkhouse,

Thank you for the details of my share in the 'Summer School' lectures! I have not heard from the Red Cross - but I expect they share my confidence in arrangements made by you!

I may not need the kind 'hospitality' offered as my move is still uncertain - but I suppose that can be left open for the moment!

I hope my lectures may be some good to the students - but I am so vague as to what they require that I am rather doubtful and almost (not quite!) regret that the R.C. has put so much financial value on them!

With many thanks yours sincerely

S. Melhuish
