

22nd June, 1984.

Dr. J.H. Botting,
Department of Pharmacology,
Chelsea College,
Manresa Road,
London SW3 6LX.

Dear Dr. Botting,

re: Bedford College Nursing Studies - Pharmacology

Thank you for returning the examination scripts and I note the one failure. We will come back to you to discuss this candidate following the sitting of our examination board.

At this stage, I would be very grateful if you could send me an outline of the Third Year pharmacology course which our students will take together with the Chelsea nursing students in the academic year 1984-85. Our students will be breaking up for their vacation by the end of July and I would like them to have some information about the forthcoming work before their break.

I should also be grateful for a copy of the examination paper for the course in pharmacology just taught to Bedford nursing students.

Yours sincerely,

ack

for

Marion Ferguson,
Director of Nursing Studies
